After clicking the "Start playing" button a couple times, I realized that I wasn't the only one playing this game. The title screen includes this message: "In Kard Bauchi, you live, you grow up, you die and you love. When the only thing that remains of you is the sweet taste of love." It's been ages since a game made me feel so happy at the start. Introduction This is a beautiful sprite game that you can play for free. Just download it and play! As usual, please enjoy this game by making your own discoveries and mysteries! Thank you! Achievements The story of Kard Bauchi Here are the achievements you need to complete if you want to get all of them. I will explain what you need to do to get them all. :) The Fox Mask This achievement represents the true miracle of this game. You have to be the first person to finish the game on the difficulty setting "none". Because there are no obstacles and you can just use your ability to jump and run. The spirit of fairies This is achieved when you enter in the seventh Level and kill all of the fairies in the level. It is just like a Skyranger achievement. Holy ghost You can't get this achievement until you reach the end of the story. Once you do that, the game will automatically load you in the last level. You can play it over again as many times as you want to for this achievement! The ending of the story At the end of the story, you get a very nice bonus that represents the time and dedication you have spent on the game. Thank you! About the creator Hey guys! Thank you for enjoying my game! If you have any questions or suggestions, please email me at [email protected]. Credits I made this game thanks to all the people that followed my progress. Thank you so much! The wonderful artists of the TG page: Kingdom of Sorrow is a beautiful puzzle game with a story of love and death! Are you the one to discover the truth of the mystery? ===== SONG INTRO Long ago in the land of Soruto-Torusia lived a young man named Kokinda. He had two swords; his body was frail. He fell in love with the queen named Luvia and asked to marry her. ===== 1 The king of Luvinia, named Dauros, gave his daughter Luvia to Kokinda. (Luvvia and Kokinda prepared to sail) 2 The two became lovers. but her parents were displeased. (Luvvia, Kokinda on the sea) The two fell in love. 3 They were just about to sail away. (Luvvia and Kokinda on the sea) But they were separated. Luvvia was driven from the king's side. 4 She was taken care of by a prince. (Luvvia and Kokinda on the sea) Although she lived in a different place she couldn't do anything but wait. 5 As time went on she got sick. Luvvia and Kokinda on the sea) She was sad for what had happened. Kokinda, where could she go? 6 The prince she was living with was distressed. He wanted to see his beloved one. He set out for Italy. 7 Luvvia got well soon. She was taken back to the king's side. 8 In Luvinia it was like this. Kokinda was far away. She wasn't happy about it. 9 In a distant place called Dauros Kokinda was sick. On top of that, she just knew one thing. 10 He was somewhere traveling on a ship. Where could he go? 11 No one was with him. She was afraid he wouldn't survive. 12 When Luvvia finally met up with him, she broke down in tears. ◆

## **What's new in Holy Knight Luviria Original Soundtrack:**

**by Michael “Mike” Giammari** Liviria, the once-hidden undead knight that has been resurrected by the Grand Duke, is my favorite incarnation of Chao and Iris. His combination of scary yet humorous video game archetypes make him simple fun to play as well as a very good character to be your favorite. He can't directly affect his existence with thousands of lives in the game but, with hundreds of grimoires he can take out a large number of undead with combat, psionic, and clerical spells, restore lost health and status, and avoid death damage. What's more, he shares a special relationship with the Grand Duke and is highly regarded by Mallow, despite Mallow having made her own high-ranking undead knight. With his actions during the games, you will see, come to expect that Luvira will do no one any favors and that he is likely to help himself more often than not. Furthermore, during his time in the Grand Duke's castle, he will notice places that are off-limits and activate traps there that send you back to the game's overworld map as a claymore type situation. It is only at the end of his journey, after he has taken the last grimoire, that the relationship between him and the Grand Duke will be explained and their relationship becomes truly clear. Being a “Final Execution” character, he can be acquired in the game's two last dungeons. The true version of Luvira will later learn of his origins, come to appreciate his past, and eventually join him and the Grand Duke in their fight against the demon lords that sent him on this journey. Liviria Aside from these positives, Luvira is a difficult character to achieve. First, Luvira might seem fairly difficult to acquire because he must participate in a few gimmicky events. His most significant acquisition, the key to his resurrection, requires a specific mod chip installation. Your fastest route to Luvira is from an undead knight (ghost or corpse) by defeating it using three dragon darts. These range from 1400 to 2400 points a part, making it a rather expensive way to acquire him unless you want to level an entire party to a certain point then get them to level up once they have the mod chip, have them go forth to get Luvira, and then send a crew back to the game's overworld for
