You're dead. There's nothing you can do about it now. You awake in hell and your worst nightmare comes true. Your only goal is escape. There's no fighting your way out—it's not even an option. Your one weapon is a highly lethal arsenal of weapons. Depending on who comes out of the darkness with you, you could become the first Demon to escape the pits of hell. Demons with Shotguns is the ultimate local multiplayer experience. Players will command a team of two demons (or two demons with shotguns). Players move together by holding a button and can move at speeds and by distances that no single player can achieve. Players can also activate weapons in the blink of an eye, ranging from silenced pistols to lasers and rocket launchers. Demons with Shotguns is inspired by the classic Doom (and later, Unreal Tournament) games. It plays like an action-packed shooter, but is a more strategic game, as players must always think about not just where they're going, but when. They can run forward to take out zombies or other players, use the environment to hide and surprise others, and destroy cover and enemy shields. Demons with Shotguns is a ton of fun, and is quickly becoming one of the best shooters on Steam. Features: Two player mode, up to 8 players online Quick, responsive controls Coordinated, fast-paced action Detail-filled environments, complete with varied drop-off points Lots of zombie enemies to defeat Both demons and zombies spawn at different locations (depending on how many players are in the game) Weapons: Shotguns (variety of models, depending on the ammo type) Pistols (variety of models, depending on the ammo type) Lasers (variety of models, depending on the ammo type) Bombs (variety of models, depending on the ammo type) Accelerator (uses random model, depending on the ammo type) Doom-inspired puzzle-solving Tons of achievements (and fun ways to earn them!) Demons with Shotguns is the kind of fast-paced, explosive local multiplayer game that should go quickly in the pockets of friends and loved ones. What we think: "Demons with Shotguns is the kind of fast-paced, explosive local multiplayer game that should go quickly in the pockets of friends and loved ones." - 8/10 by c9d1549cdd
