Read more Main features • Discover a completely new way to interact with the game with the addition of the Pro Controller and Move Controllers. The Pro Controller and Move Controllers make their debut on consoles, as well as some exciting motion controls options with a Nintendo Switch-exclusive VR function. • Players can also capture the feeling of controlling real soccer with Highlight rewind, as they seamlessly bring into the game the intense ball skills and reactions that distinguish their own game play. • FIFA Series is back with some of the most loved features, such as live moment replays, curling free kicks, increased ball skill animations, control slick passing, dribbling, and shooting, and a completely new “First Touch” control system, a first for a FIFA game. • Brand-new animations and improved player models help players control the ball better and discover more skilled moves. All of the clubs and players have improved animations. • The One True Move tech system now supports Real Player Motion capture, allowing players to be captured in high-intensity motion to produce more realistic animations, in addition to being able to run while the player and move as they move. • Dribbling has been improved in a number of ways. Players can more easily dribble past defenders with the new, faster dribbling style, while tighter controls allow players to control where they want their pass to go more efficiently. • Shooting has been improved, with a new close-up view where players can see exactly how their shot is going to land. Players can also shoot more efficiently, with smarter shot angles and more powerful shots. • Improved heading control ensures players can remain more central and on-target when crossing, while improved defender anticipation improves the accuracy of headed crosses. Players can also shoot more accurately to spot-on-target and more efficiently with loose shots. • Improved off-the-ball dribbling controls allow more refined and realistic ball control, while the improved off-the-ball controls for smart players can help them when they need to exit pressure and run to spots where they can receive a pass. • Added pressure off the ball allows players to make better decisions as to where and when to move into defensive areas. • Added options for defensive playing styles, including an aggressive pressing style, a pressing style that allows players to sit back and hold on to the ball, and a more defensive style that helps counter pressing actions. • All-

What's new in Fifa 22:

- **Fresh new gameplay. *Tackle new technologies to change the way you think about football. Use your brain to find new strategies and talents so you can get the edge in crucial matches. Use new tactical systems and formations with fluidity and drive across the pitch. Blurring the line between play and artificial intelligence, you become part of the action.***
- **Capture a more realistic environment. *Hands on the controls means gamers can play the game with the clock ticking to bring goal, and the crowd screaming.***
- **New feature for managers. *Each team has its own unique style of play and you can unlock new hero moves by performing various player-oriented actions.***
- **Enhanced ball physics.**
- **Perform your own 'one-on-one' goal celebrations. *Choose one of four and over a dozen new events that bring your celebration to life on the pitch. Decorate the goalpost to make it your own.***
- **Brand new soundtrack.**
- **Fluid and reactive gameplay. *Move like the wind, take control of the ball like there's no-one watching, and do what you do best.***
- **Improved Free Kick Simulator. *Take total control of your 12 yard shot! The new free kick simulator lets you aim, choose to go over, or under the line and strike dead ball with multiple types of finishes. Also new are goalkeepers who will attempt to block and dive back into your shot if need be.***
- **Six new exciting game modes.**
