CopyTrans Manager V1.112 [Latest] Download

...that Avast bought the company, they force install the latest version.. They also install a "task" in the task manager that forces this installed. And there is no new task in Task Manager to look out for. When I reboot and get a message that a new task needs to be installed, it never runs. When I start the task manager I don't see anything, it just says:

CopyTrans Manager V1.112 [Latest] Download

...that Avast bought the company, they force install the latest version.. They also install a "task" in the task manager that forces this installation... But there is no message in the task manager about the task that should be installed. And there is no new task in Task Manager to look out for. When I reboot and get a message that a new task needs to be installed, it never runs. When I start the task manager I don't see anything, it just says: dd2bc28256
