twentieth century fox uk really let its panda down with this ironically titled 'awesome edition' of the dreamworks animated hit. due to a monumental misfire, the localised uk soundtrack was only provided as a lossy dts 5.1 mix something of a kick in the teeth for a franchise that has always delivered astonishing audio. to make matters even worse, the superior dts-hd ma 7.1 track is actually present on the uk disc, but can only be accessed when it's spun in a region a deck!
